

Coral Library 1 SoundFont

Coral Library 1 SoundFont, is an “sf2” format library that collects various voices and choirs ever made. With over 250Mb unzipped, we created a soundfont full of the highest quality samples, generating 15 different choir presets, each assigned to a number from the GM table. Your classic, pop or rock MIDI will surely acquire real audio quality with **Coral Library**.

Features:

- GM + GS "sf2" format
- 260 MB of space
- 030 Instruments
- 003 Preset GM
- 012 Preset GS
