

SFGXM ProSFKR SoundFont

The Best SoundFonts

SFXGM Pro SoundFont

SFXGM Pro SoundFont, is the best soundfont ever made for quality and for the reproduction of MIDI GM and XG. The SoundFont is in proprietary "sfkr" and "sf2" format recognized exclusively by our MidiSoundSynth program. Although the YAMAHA XG format is a bit dated, its quality will certainly help many owners of MIDI XG libraries to obtain realistic audio reproductions. Our proprietary soundfonts in "sfkr" format allow you to reduce the space by 1/3 of the real capacity of the "sf2" format, maintaining the same quality and thus optimizing memory space.
